

## Early Journal Content on JSTOR, Free to Anyone in the World

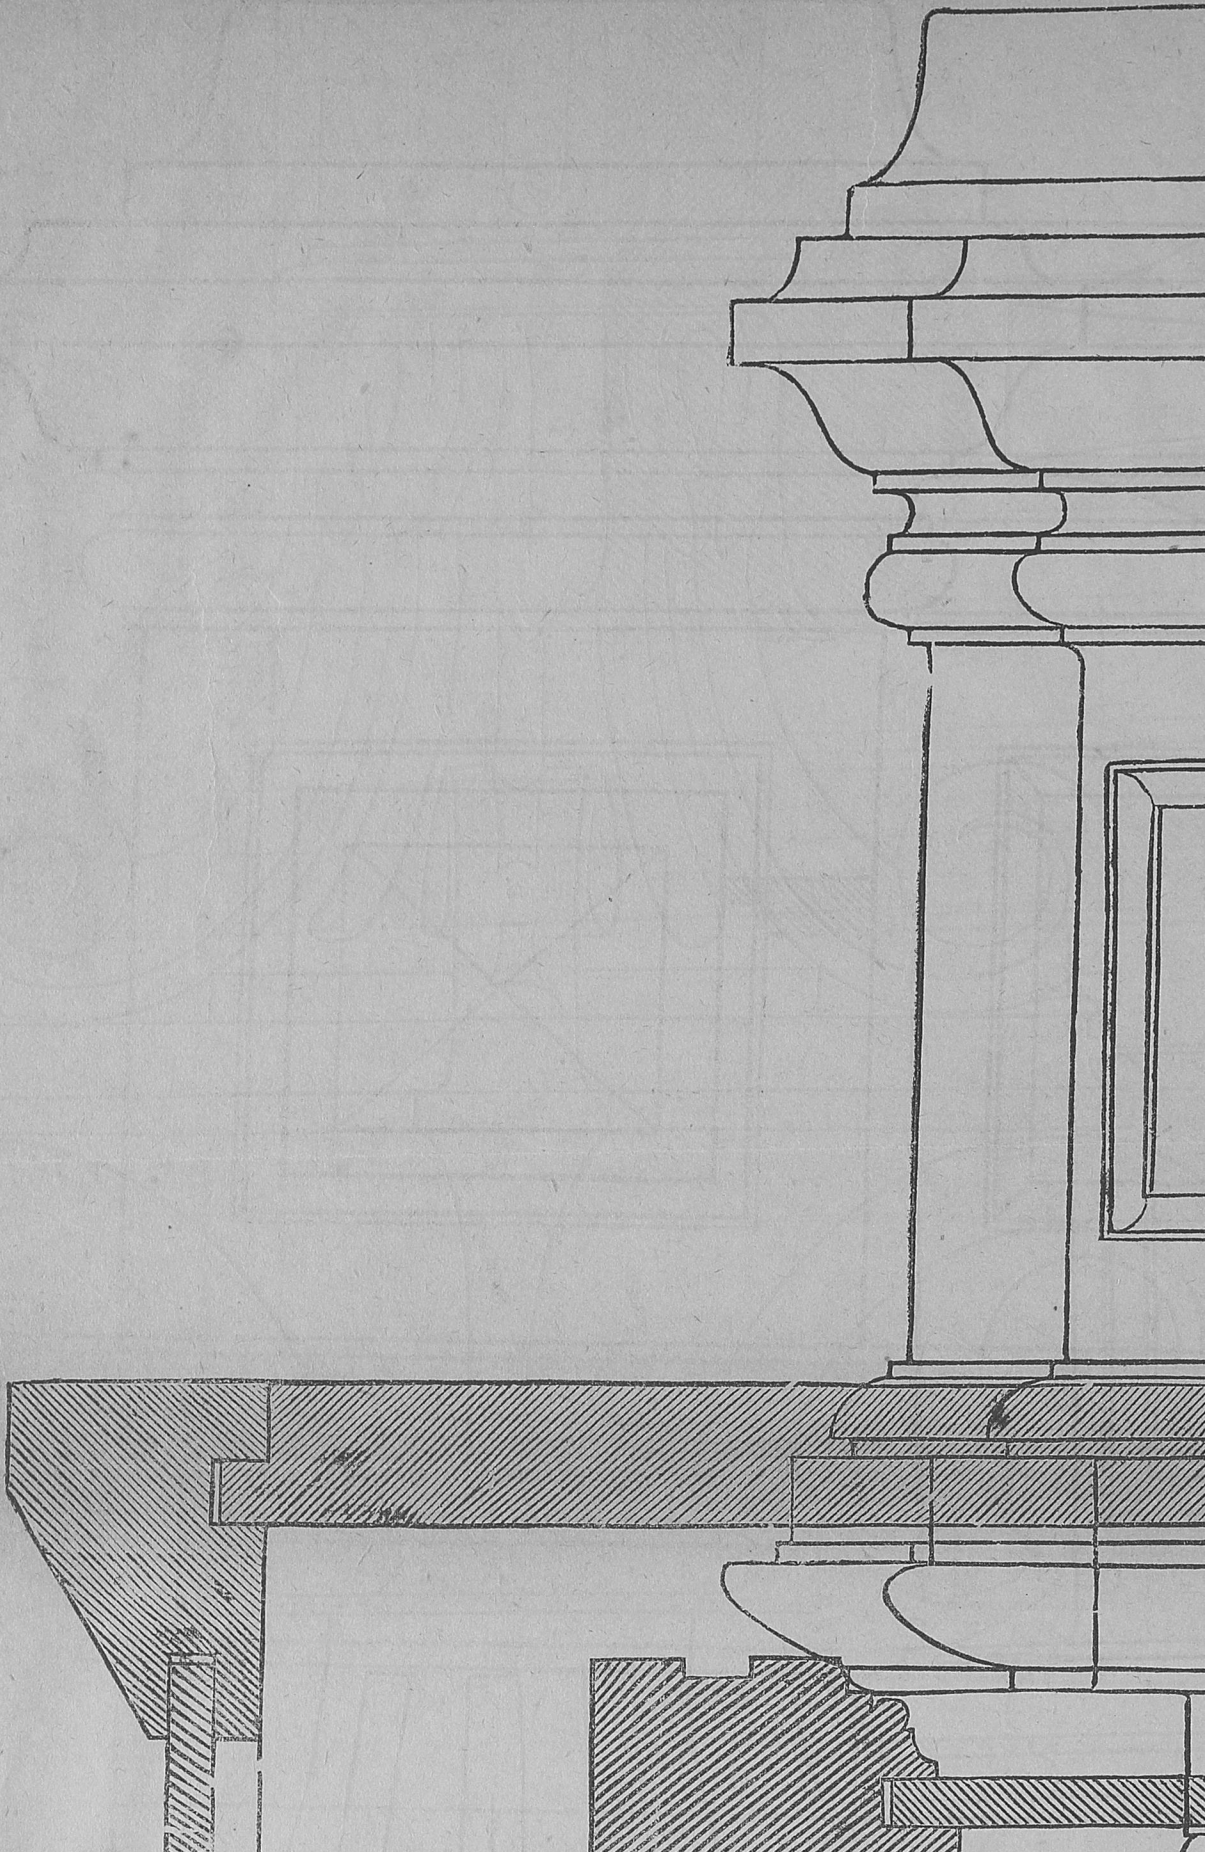

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

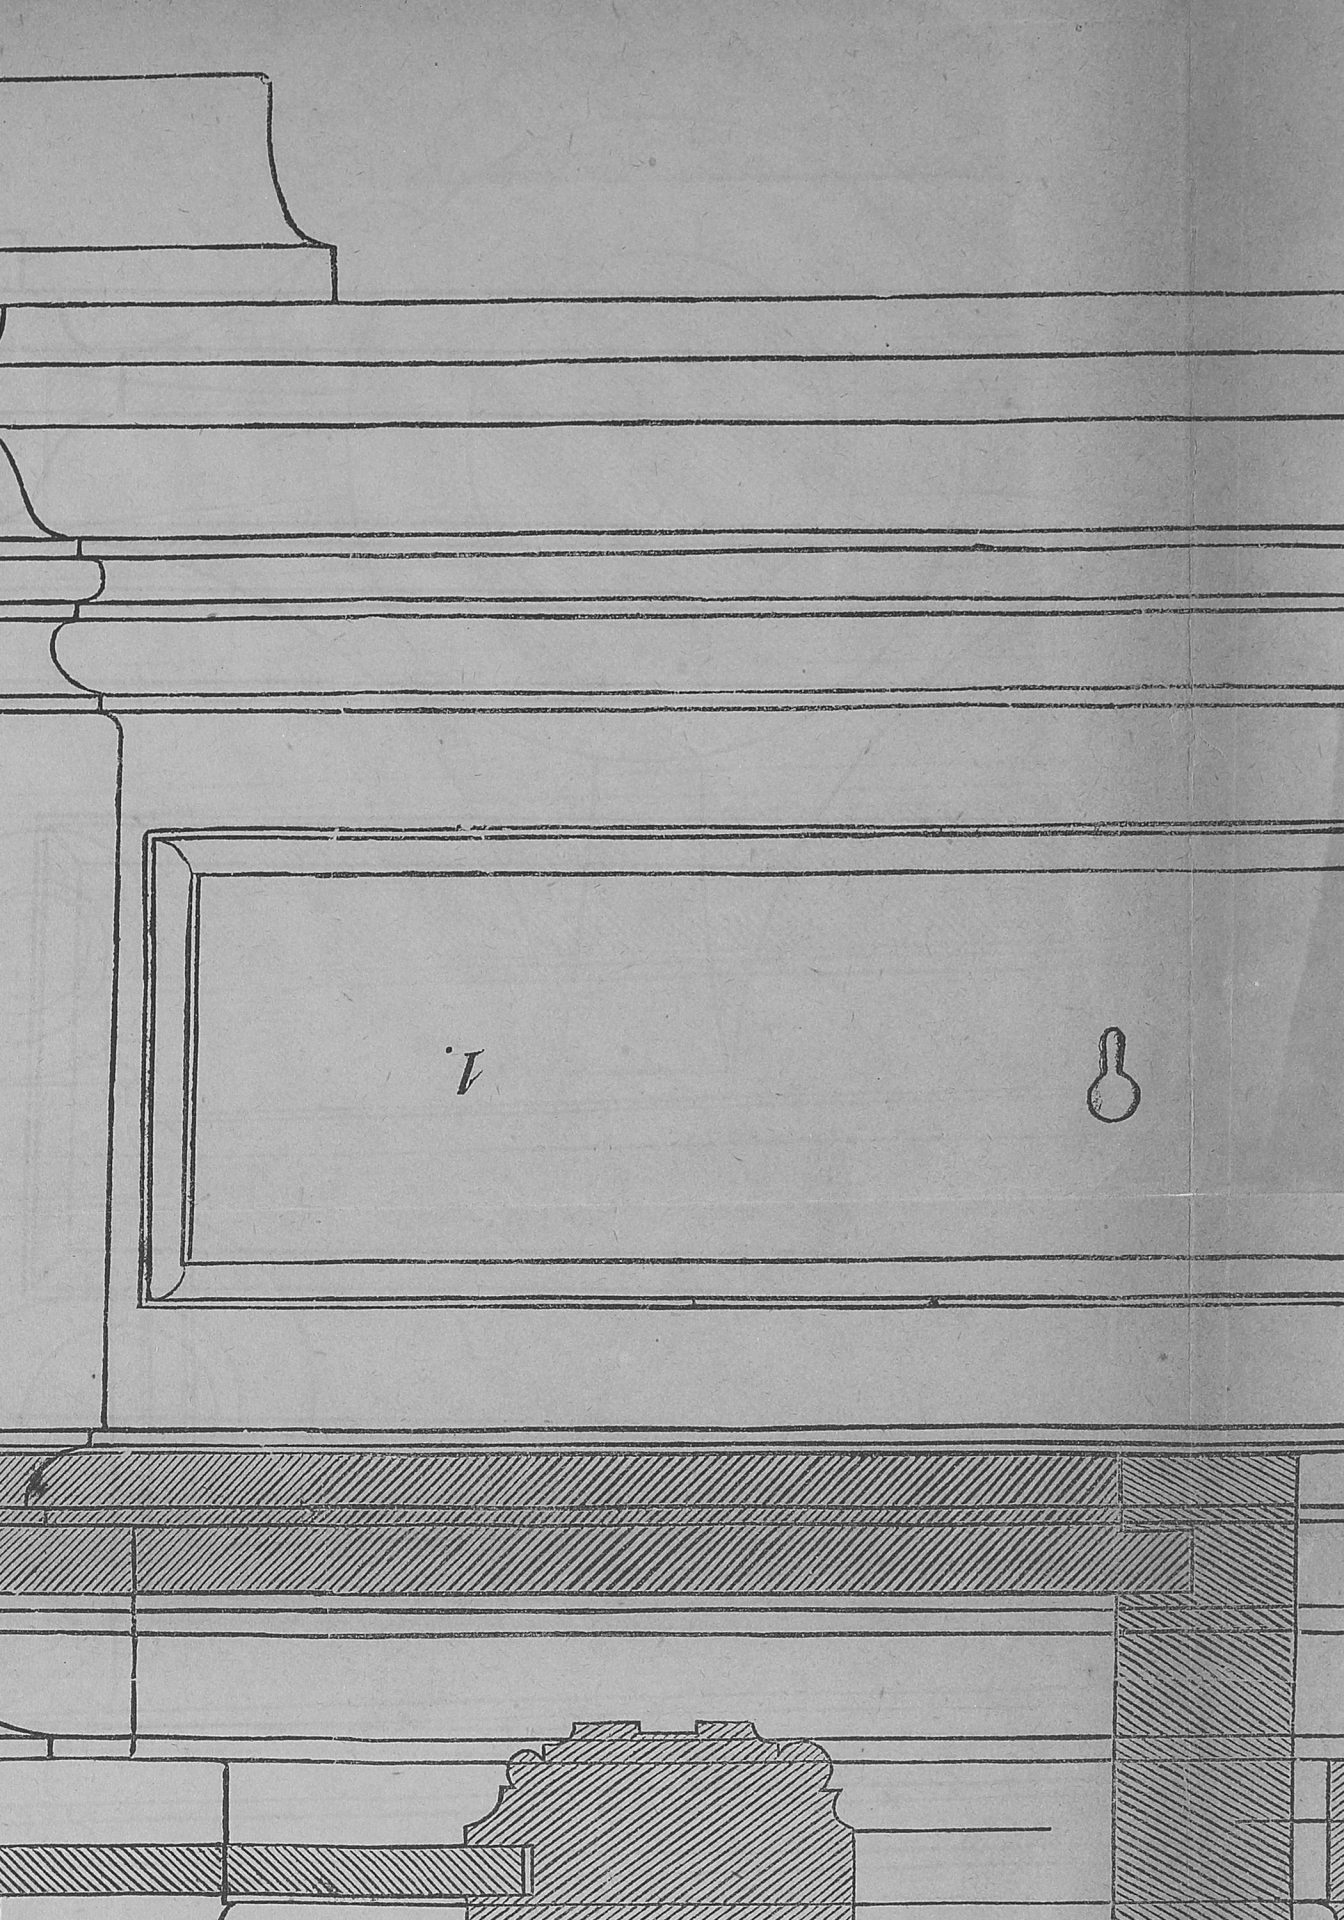

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

# THE WORKSHOP.

1870.

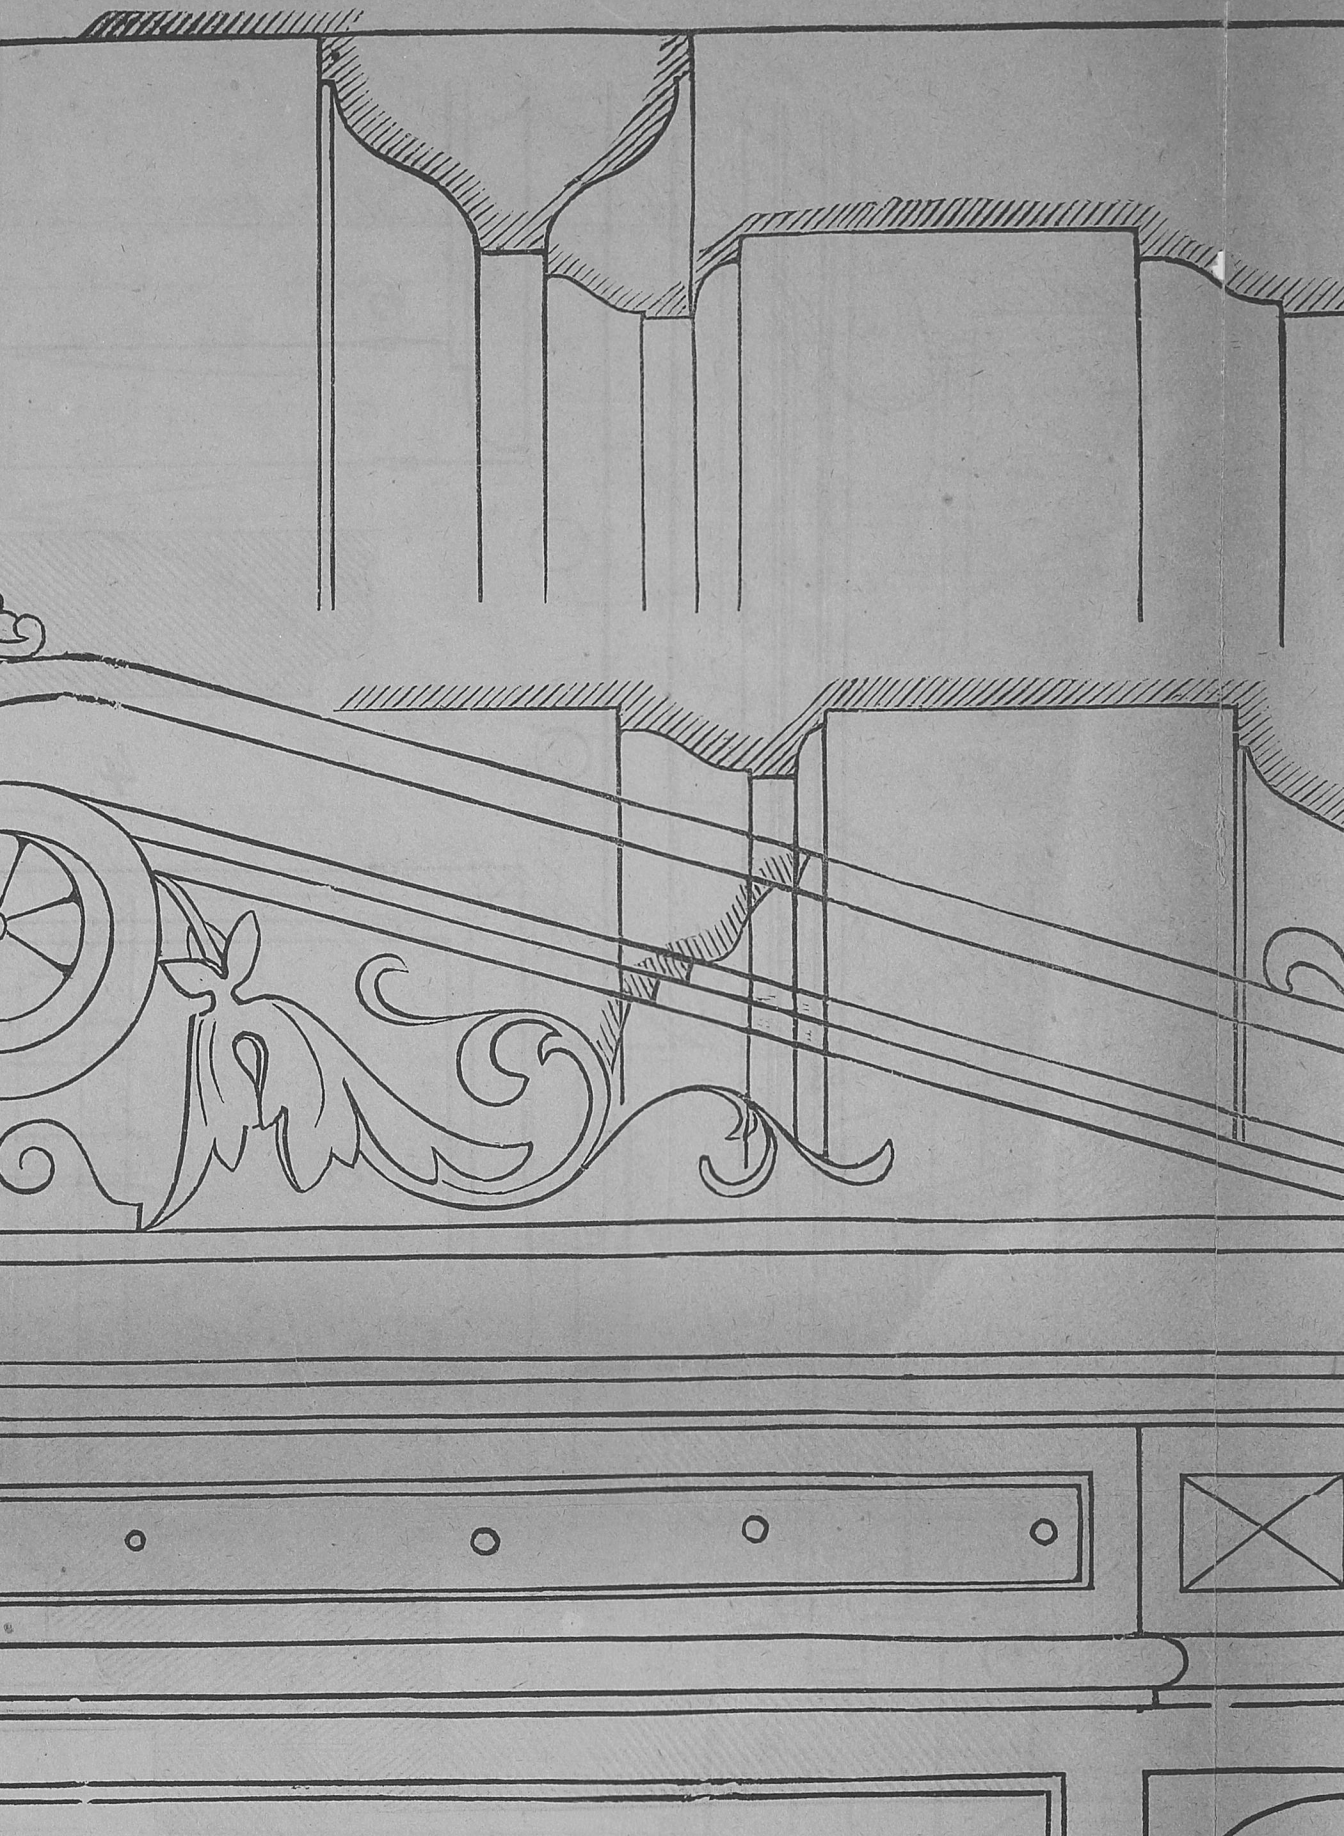

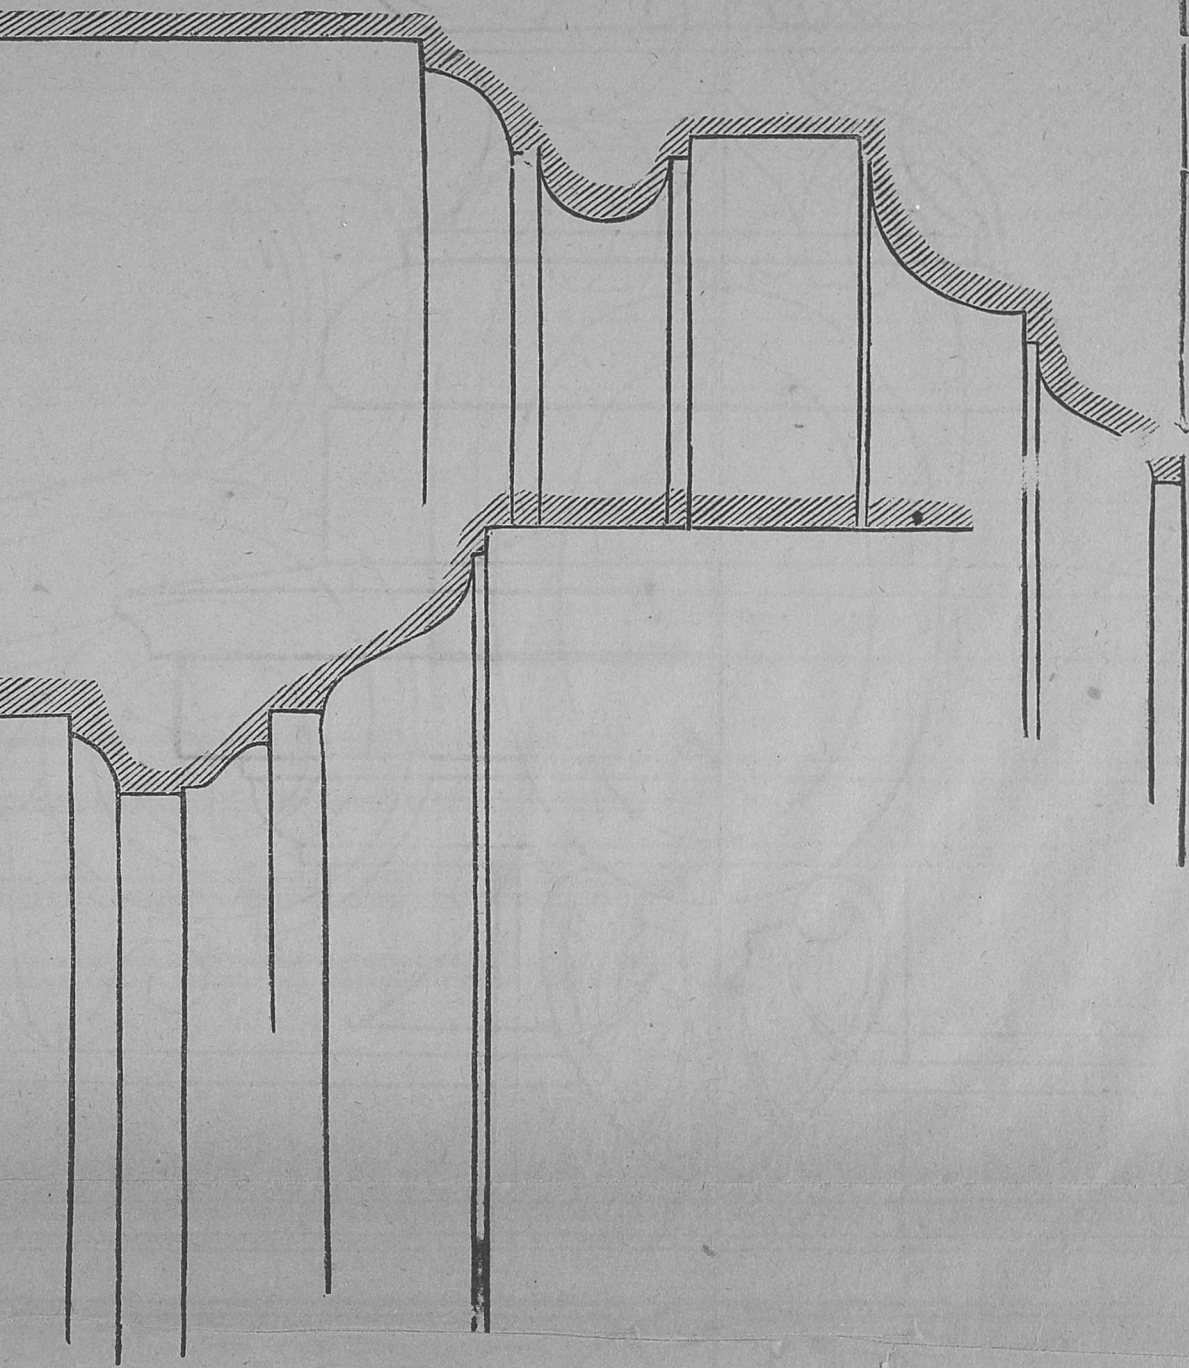

6.

This architectural drawing shows a section of a building facade. On the left, there is a series of vertical elements, possibly columns or pilasters, with decorative capitals. A large, plain rectangular panel, labeled '6.', is positioned to the right of these elements. The panel is set within a recessed area, and its top edge is defined by a horizontal line with a hatched pattern above it. The drawing is executed in a simple line-art style.
